MYSORE

To

The General Secretary to
The Government of Mysore

Sir

I have the honour to forward herewith letter No 964 C dated 26th November 1895 bearing this Office Reporter No 5256/1039 from the Principal of the College of Engineering, Madras recommending that the premium of Rs 500 payable by V Ashwatha Narayana Rao a Mysore State scholar of the College to the Madras Railway Company for receiving practical training in the Locomotive Workshops at Perambur during 1896 and 1897 may be paid by the Mysore Government

In the 1st & 2nd compartments

Ashwatha Narayana Rao, B A was given a scholarship of Rs 25 a month by Order C No 19- dated 23rd July 1892 and the rate of the scholarship was increased to Rs 33 by Order C No 22-23 dated 3rd August 1893 His theoretical course has just been completed, and he chooses as

Do-post 4th

2

his practical course training in the Madras Railway Workshops Should he take the first place in the B E Degree Examination which will commence on the third Monday of this month the Madras Government will pay him half the fee of Rs 250 required for admission to the Railway Workshops It is possible for him to obtain some training as a Mechanical Engineer in the Public Works Workshops gratis, but he desires to be trained for two years in the Railway Workshops which in the opinion of the Principal afford better training than the P W Workshops Under these circumstances I recommend that Government may be pleased to sanction Rs 500 being the full premium that Ashwatha Narayana Rao will have to pay for joining the Railway Workshops or Rs 250 if he should take the first place in the B E Examination and the Madras Government pay the remaining half of the premium.

2 Should Ashwatha Narayana Rao be allowed to take a two years' practical Course as recommended by the Principal a subsistence allowance of Rs 25 a month will have to be sanctioned for him for a

period of two years The Madras Govern-
ment grants the same subsistence allowance
to its scholars

I have the honour to be,
Sir,
Your most obedient Servant,
H J Bhabha
Director General

9a No 964 C 5

Dated 26th November 1895

FROM

THE PRINCIPAL,

COLLEGE OF ENGINFERING, MADRAS,

To

The Educational Secretary to the
Government of Mysore,
Mysore

SIR

Enclosure 1

In forwarding a letter from Y Aswathanarayana Rau a 3rd year Engineer student of this College and a Mysore scholarship holder I have the honour to offer the following remarks

2 Under Art IX (2) of the College Rules, Mechanical Engineer Students pay a premium of Rs 500 for two years training at the Madras Railway Loco motive shops They may however receive a mechanical training at the

Public

Public Works Workshops gratis There is no doubt that the opportunities are greater and the training better at the former shops than at the latter

3 Government have recently ordered that the practical course for Civil Engineers and Engineer subordinates shall be reduced from two years to one The necessary practical course for a — mechanical Engineer will probably be similarly reduced At the same — time I am of opinion, and I am sure that the Locomotive Superintendent of the Madras Railway will endorse my view. that two years is the minimum period which a Mechanical Engineer student should devote to purely practical work.

4 Asvathanarayana Rau states that in the event of the payment of his

premium

premium being sanctioned by the Mysore Government, he will be prepared to work for two years at Perambore even if the prescribed period for qualification should be fixed at one year

5 Should Aswathanarayana Rau be the senior student of his year who elects for Mechanical training one half of the premium of Rs 500 would be defrayed by the Madras Government

I have the honor to be

Educational Secretary to the Govt of Mysore

Mysore

(Through the Principal- College of Engineering-Madras)

Respected Sir,

I the undersigned and one of the State Scholars in the College of Engineering-Madras, request to bring the following few lines to your kind Consideration

At the outset I request to say that I am highly grateful to the Mysore Govt for allowing me to hold an Engineering scholarship especially in Madras For the Course in the Madras College extends over 5 years of which 3 are spent in the College to learn the theoretical portions and two in undergoing practical training Also training in both Civil and Mechanical Engineering is given here Now my theoretical course would be over by the end of the year I am very anxious to bring to the notice of the Mys Govt a point which seems to deserve its favourable consideration and generous sympathy

As far as I know none of the Mysore student sent out to receive training in the Engineering Course have become Mechanical Engineers Also as Mechanical Engineering is becoming more and more important now a days I am greatly actuated by a desire to take up that branch of the Engineering profession In order to finish my course satisfactorily in this branch I

must spend the two years of my practical course in the Madras Railway Workshops at Perambore But to be allwed to work there for two years I have to pa a fee of Rs 500 to the Madras Railway Company A. I am the first Mysore Student that wants to take up mechanical Engineering and as training in this branc is so very essential I request that the Mysore Govt will be kind enough to make me a special grant of those Rs 500 in addition to the scholarship which it is willing to give me during the practical Course

In conclusion I beg leave only to say that the first efforts of a Mysore student in this direction may be viewed with special favour and that the Mysore Govt will be kind enough to lend its help in this important matter of securing mechanical training to one of its students

Hoping that this request of mine would be granted

I remain
Respected Sir
Yours most obediently
Y Aswathanarayanarao

IN MYSORE

To

The General Secretary to the
Government of Mysore

Sir

With reference to Order No 8390/89228 dated 22nd January 1896, I have the honour to inform you that the question of the training of the Engineering scholars was fully discussed in 1892 with the Chief Engineer, and it was then decided that the Mysore scholars should be encouraged to receive their education in the Madras Engineering College in preference to the Poona College of Science The Madras Engineering College provides after a theoretical course of three years a year of practical training for Civil Engineers and two years of practical training for one Mechanical Engineer every year who is permitted to join the Perambur Railway Workshops Civil and Mechanical Engineers during their practical

course are allowed a subsistence allowance of Rs 25 and travelling allowances at the rates sanctioned for officers of the third class in the British Civil Service Regulations The Mechanical Engineer who joins the Perambur Workshop has to pay Rs 500 as premium to the Railway Company Mr. Y Aswatha Narayana Rao who expects shortly to comple the theoretical course prefers the practical training of a Mechanical Engineer and wish to join the Perambur workshops It is for Government to decide whether he should receive practical training as a Civil Engineer or as a Mechanical Engineer. If he is to be trained as Civil Engineer a subsistence allowance of Rs 25 a month for one year and a third class officers travelling allow ances have to be sanctioned. If he is be trained as a Mechanical Engineer in th Perambur Workshops after passing the B E Degree Examination he will require the same subsistence allowance for two years and the premium of Rs 500 which he has to pay to the Railway Company In the latter case he hopes that if he will take a high place in the

B E Degree Examination the Madras Govern
ment will give him one half of the premium
or Rs 250, and he requests that the Mysore
Government may be pleased to sanction the
balance of Rs 250

I have the honour to be,
Sir,
Your most obedient servant,
H G Bhabha
